

It's **easy** to check library materials out...just print your first and last name on the book/movie card and stamp the "return by" date next to your name. Parents, please monitor your children checking out items to make sure they are printing legibly with both first and last name. If it is your first time checking items out, please fill out your family information on the slip provided in the desk caddy. Please return your items by the due date so that others may have the opportunity to check out and enjoy them.
